

Certification Course in

ENDOSCOPY

ABOUT

The Royal College of Surgeons of England (RCS England)

The Royal College of Surgeons of England (RCS England) is an independent professional body established in 1800 with headquarters in London. Currently, the Royal College of Surgeons (UK) is conducting a wide range of programmes to promote advanced training of surgeons across various specialties. With the goal of providing the highest level of training the organization offers a range of accreditation programs such as The Joint Advisory Group (JAG) which is primarily focused to impart the highest level of training for the surgeons to handle complex cases.
