CERTIFICATION COURSE ON

HEMATOLOGY

ABOUT

SignifiCast Association

SignifiCast Media Ltd., founded in 2010, is one of the most prestigious and leading digital CME (Continuing Medical Education) providers in Israel, catering to the needs of doctors and other medical professionals. The Israel Medical Association recognizes all of its courses, awarding CME credits and a certified CME course completion credential to Israeli doctors and other medical professionals. It offers a variety of lectures, videos, examinations, papers, and the most recent case studies in the area that are prepared and presented by Israel's top medical professionals, who also serve as heads of medical departments at prominent hospitals and institutions. They ensure that the highest standards are followed while developing the courses and that the most recent research, breakthroughs, and developments in the field are covered through strategic relationships with some of the most renowned universities and associations, such as the Hebrew University of Jerusalem.

ABOUT

Israeli Medical Association (IMA)

Israeli Medical Association (IMA) is one of the most prestigious organizations that independently and on a nonpartisan basis represents over 95 percent of doctors and other medical professionals, at all stages in their medical careers in Israel. The overall goal is to uphold a suitable professional & ethical standard in the medical profession along with furtherance of the professional, scientific, and economic interests of its members. The Association publishes the "Israeli Medical Association Journal (IMAJ)," "Harefuah (in Hebrew)," "Journal of Israeli Medical Students (JIMS)," and many other publications for its members on a routine basis. They regularly organize conferences, webinars, training, and educational programs. IMA has collaborated through its World Fellowship and its Department of International Relations with numerous renowned organizations and associations worldwide. They also founded the Israeli National Academy of Science in Medicine to support medical research carried out by Israeli doctors and researchers.

Modules

MODULE 1

Hematopoiesis

MODULE 3

Paradigm Shifts in the
Treatment of Acute
Myeloid Leukemia

MODULE 5

Innovations in CLL in the
Era of Chemo-free
Therapies

MODULE 7

Diffuse Large
Cell Lymphoma

MODULE 9

From MGUS To SMM

MODULE 11

Treatment Duration of
Venous Thromboembolism
- The Decision Tree

MODULE 2

Myelodysplastic Syndromes

MODULE 4

The Myeloproliferative
Neoplasms

MODULE 6

Non-Hodgkin Lymphoma –
Indolent Lymphoma

MODULE 8

CAR T-Cells

MODULE 10

Myeloma, Diagnosis and
Therapeutic Approach
in 2021

MODULE 12

PNH and Aplastic Anaemia
